Some good reporting on CFAC came out of last week's meetings up in Flathead. Sara: you are quoted from back in 1984 so I thought you'd get a kick out of reading this article.

Hi Julie,

You've probably already seen the Hungry Horse News article and learned the reporter's name. But just in case, here is a link:

http://www.flatheadnewsgroup.com/hungryhorsenews/article_2abe87e8-a1e9-11e2-99e2-0019bb2963f4.html

The Flathead Lakers are interested in participating in this process however we can to help protect water quality. I hope you can share opportunities as they arise. Thanks for your discussion of this topic at the Flathead Basin Commission. We appreciate your involvement.

Sorry I had to run to another meeting last week and we didn't get a chance to chat. My big news (which you may have noticed) is that my surgery went well and I have my voice back. It's wonderful.

Happy Spring,

Robin
